CLARISSE ESPALMADO

FULL STACK DEVELOPER

Cainta, Rizal | +63976-554-2844 | <u>Gmail</u> | <u>LinkedIn</u> | <u>Portfolio</u> | <u>Github</u>

PROFESSIONAL EXPERIENCE

Full Stack Web Developer   **October 2023 - Present, Quezon City**
One Document Corporation

- Served as **Core Developer** in a **five-member cross-functional team** (Developers, QA, BA, PM) for a Human Resource Information System (HRIS). Contributing to system architecture, backend logic, and integrations using **PHP (Laravel), JavaScript (jQuery), and MySQL** improving **data accuracy by 25%** and reducing **manual processing time by 50%.**
- Designed and implemented responsive frontend interfaces using **Bootstrap CSS, HTML,** and **JavaScript/jQuery**, translating complex backend data into user-friendly **HR dashboards**, forms, tables, and modals used by administrators and HR personnel.
- Integrated a **REST API** to fetch attendance data from the company portal, streamlining HR workflows and reducing manual processing time by **90%.**
- Configured and installed **server applications** and dependencies required for deployment, helping streamline the setup process and ensure **production readiness**.
- Resolved **50+ logged bugs** and feature issues, improving overall system stability and **reducing user-reported errors by 30%**.
- Designed and implemented **customizable file viewing and PDF reporting** modules, enabling administrators to generate tailored reports and data exports based on business requirements, reducing report preparation time by **70%**.
- Wrote and optimized complex **MySQL stored procedures** to handle payroll, timekeeping, and attendance data processing, improving query performance by **40%**.
- Collaborated within the developer team using **GitHub** version control workflows, ensuring **100% commit traceability,** smooth merges, and consistent version synchronization across multiple deployments.

IT Intern (Website Testing and Improvement)   **May 2022 - July 2022, Bengaluru, India**
ZenGages

- Performed comprehensive cross-device and cross-browser testing on 10+ environments to identify and document front-end compatibility issues.
- Collaborated with a 6-member intern development team to reproduce, prioritize, and resolve UI/UX bugs, improving site responsiveness and user flow.
- Participated in daily stand-up meetings, providing insights and feedback that enhanced feature quality and deployment readiness.
- Utilized browser console logs and debugging tools to isolate defects, contributing to faster issue resolution and reduced regression cases.
- Documented usability observations and suggested actionable design improvements that improved overall user satisfaction.
- Executed structured test cases for new features, logging results and discrepancies to ensure strict compliance with functional specifications.

SKILLS

- **Backend Systems & Reporting :** PHP, Laravel, Web-based Reporting, MySQL
- **Frontend Engineering :** HTML5, CSS3, JavaScript (jQuery), React, Tailwind CSS, Bootstrap
- **API & Version Control :** REST APIs, Git/GitHub

EDUCATION

Diploma in Information Communication Technology   **2019 - 2022**
Polytechnic University of the Philippines
